1. Attached for your information are lists of Federal, State and Local participants who will be attending the two days of hearings before Senator Jeremiah Denton's Senate Judiciary Security and Terrorism Subcommittee on 13 and 14 September. The FBI is currently completing the clearance process on those State and Local participants who do not possess a Top Secret clearance. The Bureau has assured Subcommittee staff that there is sufficient time and that the process will be completed by Tuesday. Subcommittee staff informs the undersigned that there may be as many as 70 individuals participating in the two-day closed session.

2. The session will take place in the Senate Judiciary Committee Hearing Room, 2226 Dirksen Senate Office Building. Transportation leaves the front of Headquarters at 9:15 a.m. on the 13th. Please inform the undersigned should there be additional CIA participants. We must relay the same to Subcommittee staff to insure admittance on 13 and 14 September. Security for the hearing is being provided by the Capitol Hill Police (Detective Jarboe, tel. 224-3171, Special Investigation Division). The Capitol Hill Police will post two uniformed policeman at the door and provide sweep and monitoring services throughout the hearing.

ALL PORTIONS OF THIS MEMO
ARE CLASSIFIED SECRET

3. In order to be fully prepared for the session, we have set up a prebrief to be held on Monday 12 September at 11:00 a.m. in Room 6E 60 Headquarters. Office of General Counsel will send a representative to brief on the parameters of CIA's role domestically especially as it relates to the subject matter of this hearing. Office of General Counsel will provide CIA's witness with a one page talking points paper should the issue be raised.

4. Subcommittee staff advises that FBI/CIA/NSA panel may be testifying longer than most of the other witnesses simply because the Senators consider the Federal link in the Olympic Security chain to be particularly important. According to the staff, the line of questioning may be as follows:

-What is CIA's specific role in the area of Olympic Security?

-Are the normal collection criteria sufficient to satisfy this special need?

-Is there a need to increase collection coverage for the Olympics?

-What is the intelligence apparatus that is (will be) set up to cover this issue (describe)?

-Is there a mechanism established to get the intelligence to the State and Local authorities should that be necessary for them to act on it?

-What problems might arise/recommendations we might make to insure the best security possible?

4. The CIA witness may wish to address some of these issues in his opening statement. This office recommends that the CIA witness deliver a brief opening statement touching on these areas and leave specific details to be covered during the question and answer session. While we do not have to submit an opening statement, we should be prepared to make one as a member of the panel.

5. Other details can be handled at the prebrief on Monday.
